

Hi everyone,

First of all I wanted to thank about the great opportunity to be here, so thank you.

My group and I, we are delegates of Latvia. Latvia is located in Northern-Eastern part of Europe. It is the middle one of the Baltic states. Up North there is Estonia and down South there is Lithuania. But remember – we are Latvians, citizens of Latvia.

We joined the European Union in 2004. Our government has declared as one of its priority goals to join the Euro Area in 2014. We are also part of NATO.

As some of you may already know, capital city of Latvia is Riga. About 20 kilometres from there is Adazi Secondary school. It is the school where all members of our group go to. At about 1000 students it stands as one of the biggest rural schools in Latvia. Actually this is the 3rd time our school participates in this project but it is the first time for everyone who is here right now so we are really looking forward to this great experience.

And, yeah, I wanted to wish you all great luck during our work in discussion groups and see you there. Thank you.
