We remind you - it is not recommended to feed wild birds in water bodies!

It is often observed that people, especially families with children, like to feed birds, including swans, with bread during walks. Birds that are used to it are no longer afraid and sometimes approach people to get food themselves. Sometimes reckless human behavior can affect or even endanger the health and lives of birds.

For a clean and well-groomed environment in Adazi.

This year, the construction of several closed waste areas near apartment houses in the center of Adazi, improving the order and cleanliness next to them.

One of the problems of the residents of the apartment houses in the center of Adazi was dealing with people who threw away waste, but did not pay for this service. In addition, the "uninvited guests" also threw away bulky waste, which waited a long time for the collectors to work for free. All this caused dislike and confusion among the residents of the surrounding houses, so the residents of several houses decided to build closed landfills. The construction of a closed landfill reduces the possibility of containers being visited by people for whom these landfills are not intended at all.

The closed waste area improves the aesthetic view of the place, the waste is delivered to specially designated places without harming the environment. Unsorted waste (as before) can be disposed of in closed landfills, as well as sorted paper / plastic and glass separately. The sites are clean and tidy, but there are still 'uninvited guests' leaving household and bulky waste at these sites. It is not the job of the waste management company's staff to collect the waste that is next to the containers

Adazi has a lot of entertainment and resting places.

- Every year a festival is held in Adazi named "Gaujas svētki".
- There is a great deal of entertainment such as horseback riding adventure ride.

Welcome to Adventure Ride - a small family stable. We are located here, in Alderi of Adazi region. We are waiting for big and small riders.

Horseback riding will give you energy and positive emotions, so do not miss the opportunity to discover the joy of riding. If you just want to, equestrian instructors will be happy to teach you everything you need to make riding fun for you and your horses. Training is possible in summer, winter, under the roof or outdoors, if conditions allow. And then you can embark on healthy adventures.

In Latvia, a new training program for schoolchildren School 2030.

A new school 2030 started in Latvia, which changed the educational program in the country, especially in Adazi.

The school 2030 program in 2020/2021 is used for grades 1, 4, 7 and 10, but each year will also be used in other classes. For example, in 2021/2022 at 2, 5, 8 and 11, and 2022/2023 for 3, 6, 9 and 12 classes. The program is based on the fact that students from grade 10 study in the direction that is chosen by profession. For example, 1) profession is engineers and architects, 2) doctors, 3) programmers, 4) lawyers, police officers and translators and 5) economists, businessmen and financiers. These areas are currently the most demanded in the world. In these directions, pupils of the Adazi secondary school study from the 10th grade. In Adazi secondary school, this program is more flexible than in other schools. Since in grade 11, students can change direction from one to another. And for the rest of the classes, these are new lessons and new knowledge.

The program allowed students to immediately study for the profession in which they will work and how they will connect their lives.

Distance learning that shocked everyone and made education and work difficult.

In March of this year, for the first time since the start of the pandemic in the world, a corona virus appeared in Latvia, which made most of the inhabitants of Latvia work and full-time education.

Due to the whole situation with the virus, the government came to move all schools and most of the companies to their homes, which greatly affected people. Because of this, 9 grades did not have exams, 12 were shortened and grades 9 and 12 did not have the last bell. Homeschooling for schoolchildren and teachers became a big burden, since not everyone could study independently. It was very difficult for the teachers of the Adazi secondary school, as they had to change all the works that they prepared and learn how to use computer programs, since not all teachers in the school knew how to use it. It was difficult for the students to get the best knowledge, since they could not have a live conversation with the teacher and understood the topic, which they themselves most needed to help.

The situation that happened this year gave a strong complication to all people, since no one was ready for this.

There is not a single city where there was no playground where you can go in for sports.

There are even more opportunities to go in for sports in Adazi.

In the Adazi region there are many places where you can go in for sports. For example, near the Adazi secondary school there is a large stadium, also 2 basketball fields, and 2 volleyball fields and there is 1 football field. Simulators are also located right next to the school. There is also a football and basketball field near the Waldorf School and the Adazi Primary School. There is also a tennis court. Recently there has been an

entertainment and sport that uses a board and paddle this SUP. For which you can rent a board and a paddle near Vejupe for money and ride on the lake.

The more sports you can do in a city, the more active and interesting life is.

A regular meeting of the Adazi City Council took place (19th November 2020)

On Thursday, November 19, the next scheduled meeting of the Adazi mayor's deputies was held.

At the meeting, such issues as "Proposal on the reduction of real estate tax" and "Proposal for financing small businesses" were considered. "Proposal to Reduce Property Tax" - Residents with low-income status, as well as people with disabilities, have the right to apply for a reduction in property tax from January 1, 2021. Now those whose application is approved will not pay for it. The "proposal for financing small businesses" was adopted unanimously, now business owners who are registered in the Adazi region and the number of employees does not exceed 5. The mayor will reduce tax projections for such businesses and will help to popularize.

The next meeting of deputies is scheduled for December 20, we will keep you in the loop of events

Polling the population about the problems in the district

2020/11

This month, polls on various topics were sent to the mailboxes of residents - roads, shops, entertainment in Adazi.

The polls were created by the students of the 10th grade of the Adazi secondary school. As it became known, most of the respondents are unhappy with the road on street „Mežaparka ceļš”.

Lack of entertainment is also a big problem in Adazi.

The surveyed respondents answered that they cannot even name places where they can have fun.

Opinions of residents, shops are a big plus of our city. People note that there are even a lot of them for such a small town, but they are happy that there is such a choice

We hope that the mayor's office will listen to our voices and make decisions

President of the country will visit Adazi

On December 22, Latvian President Egils Levits plans to visit Adazi

At the moment, the President plans to visit the NBS military base in Kadaga, an elementary school, and also plans to meet with residents in the city park

Unfortunately, due to the restrictions introduced in the country, not everyone will be able to come to the park, only 50 people. Therefore, we ask those who wish to sign up using the phone number, which will be indicated below. Those who do not have time to become one of those 50 who will be in the park, we encourage you to watch the live broadcast in our Instagram account- Adazi News

Subscribe to our Instagram account, where we publish news every day!

New electricity transmission tariffs will come into force next year!

The Public Utilities Commission (PUC) has approved new electricity transmission system service tariffs for JSC Augstsprieguma tīkls.

They will enter into force on 1 January 2021. Tariff changes will have a direct impact on users connected to the transmission network, while no changes are expected for other users.

“In the new transmission tariffs, we have continued to bring the cost structure closer to the tariff structure, determining the fixed and variable components of the tariffs accordingly. These changes will ensure a fairer distribution of costs between service users and provide more accurate price signals, which in the long run will

promote more efficient use of connections and more optimal network development,” points out Rolands Irklis, Chairman of the PUC Council.

What are the top 3 entertainment places in Riga/ Latvia?

Riga has a lot of cool entertainment places, but in this list, there’s going to be three of them.

1)Riga shooting range.

Riga Shooting Range is one of the best things what to do in Riga. A locally owned, fully licensed, and well-equipped indoor shooting range in Riga is the perfect entertainment choice for bachelor parties, hen do’s, birthdays, or if you are looking for a unique experience and wish to try shooting real firearms.

Their helpful instructors have been hand-picked among the best in the industry to provide the highest possible quality of service. There are no permits required. Whether you are merely interested or already a licensed firearms owner, Riga Shooting Range is an excellent place for you to come and shoot. Each shooting session is private, so you will not shoot together with anyone else except your friends.

2) Escape room

An escape room, also known as an escape game, is a perfect game for a person that seeks adrenaline, in the escape room a person ought to discover clues, solve puzzles, and accomplish tasks in one or more rooms in order to progress and accomplish a specific goal in a limited amount of time. The goal is often to escape from the site of the game.

3) Drift hall

Located on Mūkusalas iela 49 k-6, Zemgales priekšpilsēta, Rīga is the famous Latvian drift hall.

WOLFTRIKE® Drift Hall is the right place to get positive emotions both after a busy day and on holidays with family and friends! WOLFTRIKE® tricycles offer everyone to enjoy a controlled glide without previous experience or special preparation. All you need is a good mood, a desire to compete and catch adrenaline!

The prices range from 10 – 360 €,

1 DRIVE -10€

2 DRIVES- 19€

10 DRIVES- 95€

20 DRIVES- 185€

40 DRIVES-360€

Which is a really fair price for such a crazy and delightful thing?
