Change in the number of local governments

In July 2021, the number of local governments in Latvia will decrease from 119 to 42.

The government decided to reduce the number of municipalities. The reform will affect not only politicians but also all people because they will need to change addresses. This reform will also affect local government deputies. However, not everyone will be able to be elected because the competition for this position will be much higher than usual.

As some municipalities are dissatisfied and oppose the government's decision, the final list of regions is unknown. However, the results of this reform we will know only next year.

Expansion of Adazi

As you may or may not know there have been serious debates about Adazu expanding. For several months, Adazu municipality has been trying to include the surrounding small counties and regions so it could clarify as a city. If the idea will be successful then Carnikava, Garkalne and Saulkrasti will be added to city of Adazi. Although there have been multiple complains about it, there are no signs of stopping. Politicians are motivated to make this idea come true. They are predicting that it will happen in the course of three months.

We only can imagine what it will do to our daily life's, but for now we can only wait.

New mask store

On November 17th, a new mask store was opened in Adazi, which is located at 9 Gaujas street. The store was opened by our well-known girls – Victoria, Abby, and Sophie.

I think all of us followed the development of their Instagram account. Who would have guessed that they would be able to open the store soon? It is wonderful that

at such a young age they already own a business. However, it is not surprising because their mask designs are unique and trendy.

I have already visited the store and bought some masks. The atmosphere in the store is charming – the interior is nice, and the lo-fi hip hop is playing in the background. What about masks: the quality is amazing, and I can surely advise buying them. I want to wish good luck to girls because they work hard and deserve some credit for it.

Economic crisis

During Covid-19, the economy of Adazi municipality is going through a crisis. With this different situation in our country, the Adazi municipality has new costs. Low-income people need to be provided with masks. Although the Adazi municipality reduced taxes, and the income of this region decreased. This income could be used for landscaping, but now it does not have the funds. The Adazi economy is suffering because all measures are banned, and the flow of people to the city has decreased.

We can only hope that the situation will improve and that these difficult times will end soon.

Remote learning

In Latvia state of emergency will be extended. How it affects Adazi Secondary school?

As we already know, students from 7 to 12 class started permanent distance learning after the autumn holidays on 26 October, before the introduction of a state of emergency in Latvia. However, the situation in the country is getting worse, and now the government decides to introduce distance learning also for 1 to 6 classes, so that means that all Adazi Secondary school will be in the distance learning mode.

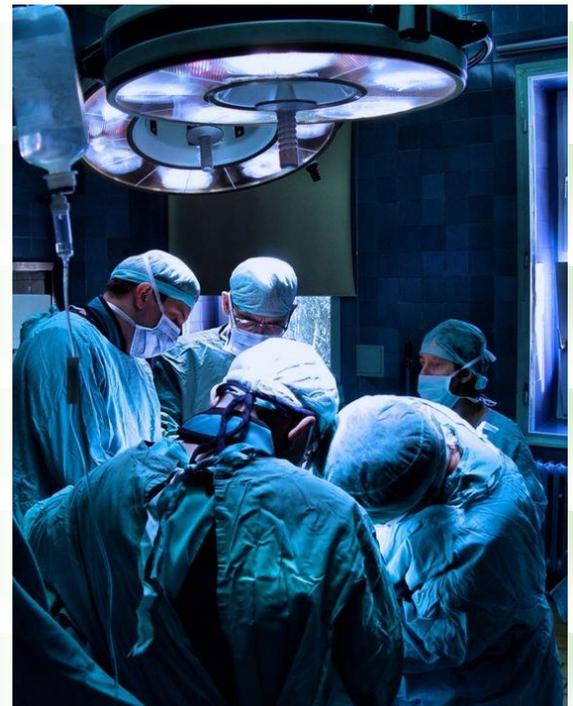

A lot of people believe that distance learning will continue until the new year, but the government did not give their comments about that.

Medical Society

Even so, there are a lot of different school clubs in the Adazi Secondary School a new one has recently occurred. Students, had some of you ever thought of becoming a doctor? If yes, then you can join the Adazi Secondary School Medical Society!

School's Student Council had come up with an idea of it, and students, who were interested in medicine, quickly picked it up and were ready to participate in its realization. After five long months of finding tutors, coming up with the ideas and arranging the place, finally, it was announced that the Medical Society will open on December 3rd.

Societies program is still held a secret, but so far, we have managed to find out that doctors and surgeons from all over Latvia will give lectures in the Adazi Secondary School every three weeks.

Students are extremely excited and cannot wait for it to be open.

Performance of the group Ramstein

We already know that Adazi is a developed and a very social city, with a pretty big number of people living here and because of that in Adazi there are popular singers and bands performing from time to time. A lot of theaters and other few things.

We haven't seen a huge band performing in Adazi before and you wouldn't believe it, but there is a popular band from another country coming to Adazi from Germany. The group "Rammstein" will be performing their new album "Mutter." This concert will be happening on 28. August at 19.00. After this message everybody will be wondering about this popular group. This is going to be something new and very big happening in Adazi. We should all start buying tickets now before it's too late, because to see this group people from all around Latvia will be traveling here to Adazi. Nothing like this has ever happened here and we all are very excited about what will happen in the future.

Our society

Our society in Adazi there has always been an importance in our society. Every person who comes and visit, every person who lives here plays an important role. We all are the ones creating Adazi as a social city. Every month children are born. This month already 30 and who knows how many next month. Our city is with us every single month. This month the popular Raimonds Pauls has moved here to Adazi which seems odd but at

the same time very nice because we know that such amazing people would love to live here.

What about sports?

Have you ever wondered how active is Adazu municipally? Statistics have shown that there has been a large increase of athletes.

More and more people have registered to Adazu sports center. The numbers are bigger than ever. Sports center has informed that there is more interest in elder sports team making, because there are only junior and kid's teams. It is huge advantage to our community; it shows our energy and activity as a sport society.

People are saying that the numbers are only increasing, which means that over the time our sports center will be filled with people. Some are even saying that there will be need of expanding training spaces.
