## Politics

The head officer of the local police station is retiring.

The local police chief is retiring from the line of duty, because of old age and the stress of the overwhelming job. The 68-year-old Kārlis Gailītis will be leaving the station and saying his goodbyes this Friday on December the 5<sup>th</sup>. The chief **sed** that he wanted to spend his last week on the job as a normal worker and not as the chief. This Friday there will be a saluting ceremony where the young and more experienced recruits will honor his duty. But **whit** this comes a new police chief **witch** means that there will be competition for the status of the head officer.

The president is coming to Ādaži.

The major has told the town to prepare for the president's arrival this Wednesday on December 18<sup>th</sup>. The president is coming to town because Ādaži will now be declared as a city and the president wanted to be present at the great opening. Some people say that the president is coming to Ādaži because of the great success of the town and the president is using Ādaži as a model town of Latvia. Mr. President will be given a personal tour **thru** the now declared city Ādaži to show what has happened to it in more than 4 years. The major has asked the citizens of Ādaži to be at their best behavior during the Presidents tour.

## Economy

The Ādaži secondary school has been rejected to a request for educational funds.

The school had requested an upgrade in the internet system. Because of the emergency state in almost all schools across the country the education is done from home. The usage of school's internet has increased which created some problems with the online classes. The school's director asked for financial support to the major, but he politely refused and reminded that the school's budget is already spent. The town's major said that next year the school will receive the funds needed to upgrade the internet.

Great housing in Ādaži.

Ādaži is constantly advancing in building design and efficiency. The new houses are energy efficient and cheap to build, maintain. The housing buildings are being massmade for a really low budget. The major is bringing more people in town by investing the town's money in house building. The great housing attracts more taxpayers to the town which earn more money for the town and allow them to upgrade the town even more. The town has one of the best economies in the country. The town of Ādaži keeps expanding and soon will become a city because of the stable income of citizens.

## Education

There is a brand-new modern school in Ādaži.

In the town center there is a new school for children from grade 1 – 4. The school is considered to be one of the most advanced schools in the Baltic states. After 2 years of construction it is finally done and open for young minds. The school was built eco friendly and has a built-in back yard for the young kids to play in fresh air. The new foundation is two stories high and has its own sports hall and a playground for the kids.

The new education system.

The project "School 2030" is officially a go and seems to be working so far. The system is based on students learning from books and information sources and teaching themselves. Because of the online schooling the new learning system has not really been fully tested and some of the teachers have not fully used the new system and have been teaching their students by the old methods. By the reviews of the students, they liked the old education system better, because it was easier to hear the subject from the teacher.

## Culture

### “Gaujas svētki”

“Gaujas svētki” is a traditional holiday in our small town Ādaži which happens every year in May 13<sup>th</sup>. The holiday is celebrated with fireworks or a light show, that takes place at midnight. In the center of the event performs a singer or performer which entertains the crowd all night. This holiday is culture to Ādaži because every year people get together and enjoy the day. Due to the current pandemic all public and large crowded events are canceled or been delayed, and that includes peoples loved “Gaujas svētki”. Because of the delay of the holiday the council managed to save a lot of money which they plan to spend on an even better event next year.

### Culture center closed during the pandemic.

During the pandemic the famous and loved Ādažu culture center is closed and all events held in the center is canceled, that includes concerts, exhibitions e. t. c. The center owners advise everyone to stay home and out if danger of the virus so the center can open once again, and people can enjoy all that Ādažu culture has to offer. As most of the events have been delayed when the pandemic ends there will be a lot of events at once, so it is advised to buy tickets early.

## Entertainment

### A New kid's playground in Ādaži.

There will be a brand-new playground next to the music and art school parking lot. It will be in the big empty grass field along the Gauja rivers left shore. The playground is planned to be done by spring. The playground is going to have a sand pit, swing, a slide and some monkey bars. Some of the older teens have requested a basketball field. A lot of the kids are saying that they have no place to spend time between their scholar and physical activities and it has proven that the playgrounds are the most popular places for teens and kids.

### A new teen center project in Ādaži.

The towns major has promised a teen center to all teen to rest and hang out with their friends in the new and fun teen center. The building will be located next to the famous swimming spot "Vējupe" by the well-known water fountain. The new center is expected to be done in less than 2 years. The new teen entertainment center aims to be a fun place for teens to spend their free time. The center is going to have cafeteria, a dining place, game room, some beds for teens to get some rest and just lie down. The greatest part about the center is that there will be no entrance fee. The idea about the project was interestingly suggested by a teacher whose name will remain anonymous. The centers building and maintaining is founded by the town hall and will even pay for the food in the center, but it will be limited per person.

## Society

People are not ok with staying home all day.

People in Ādaži are tired of staying home and being denied live communication with their friends and other people. Society is becoming more and more distant from social life and human contact. Experts say it is unhealthy to live in total isolation and advise people to connect with their families and call their friends but stay safe from the virus. Doctors have made research on human connection and long isolation and loneliness can leave permanent damage on the persons social life.

Ādaži attracts new people.

As a good and well working town Ādaži is attracting new and more citizens. This town has a great infrastructure that seems to attract new families. People seem to like this town because it has great schools and preschools, there also is good town major that knows how to run a town. In Ādaži there is a lot of purchasable land an housing and more houses are still building. Ādaži is keep getting more people to lieve here witch makes a strong community and a well cared for town.
